BEST PRACTICE-2

1. Title of the Practice:

PRESERVATION OF COLLEGE HERITAGE

B. Borooah is one of the oldest colleges of Assam. The college preserves its identity and heritage through a variety of measures.

2. Objective of the Practice:

- To uphold the heritage of the college with pride by highlighting the legacy of great personalities associated with the college.
- To commemorate the inspirational imprints left behind by legendary personalities of Assam who made invaluable contributions for the welfare of the college.
- To evoke a sense of pride among students for being a part of the college.
- To instill in students the urge to carry forward the baton of the great values that the college has been championing since its inception.

3. The Context:

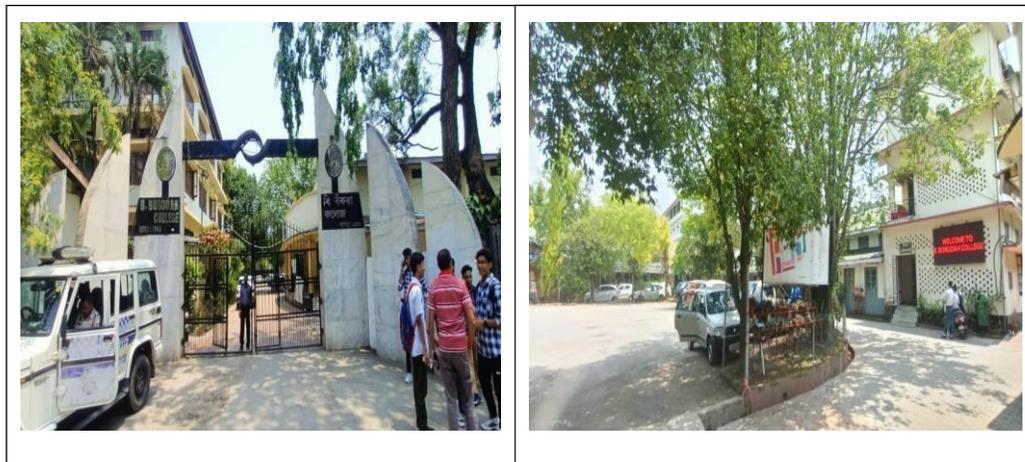

The birth of the college has a significant historical background. In 1941, the British Government had issued an order barring students, who joined the freedom struggle, from pursuing education at Cotton College, the oldest college of the region. Under these circumstances, there was a move to open an alternative college. The move was temporarily stalled because of World War II in 1942. A year after the war, the college was opened in a temporary campus at Kamrup Academy School where young men fighting against the British during daytime came to pursue studies at night. Evidences of almost everything of the college were reduced to ashes when a devastating fire engulfed it on March 3, 2005. The college was able to revive itself after the incident and re-establish its position more strongly and carry forward its and heritage and legacy.
