TENDER NOTICE

Repairing of Concrete Slab, Related RCC Work and Waterproofing in the Chemistry Department Laboratory

Sealed quotations/tenders are invited from experienced and eligible contractors/agencies for carrying out the repairing of the concrete slab, related RCC works and waterproofing treatment in the Chemistry Department Laboratory situated on the Ground Floor of Academic Block-B.

Scope of Work:

The work shall broadly include the following:

- Repairing of the damaged concrete slab, including removal of loose, damaged and deteriorated concrete wherever necessary.
- Treatment of exposed/corroded reinforcement, including cleaning and application of suitable anti-corrosion treatment, wherever required.
- RCC repair/recasting work, including necessary reinforcement, shuttering, concreting and allied structural works as required at site.
- Waterproofing treatment of the concrete slab/affected area to prevent water seepage and leakage.
- Sealing and treatment of cracks, joints and other vulnerable portions responsible for water ingress, using suitable waterproofing materials.
- Application of suitable waterproofing coating/membrane/system over the repaired slab as recommended for the existing site condition.

- Plastering, finishing and restoration of the affected portions after completion of the RCC and waterproofing works.
- Supply of all necessary materials, labour, tools, equipment, scaffolding and other accessories required for satisfactory completion of the work.
- Removal and proper disposal of all construction debris and dismantled materials generated during execution.
- Carrying out any other allied civil, RCC or waterproofing work necessary for proper, safe and durable completion of the work.

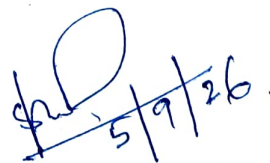

Interested contractors/agencies are advised to inspect the site before submitting their quotations to assess the actual condition and extent of the repair, RCC and waterproofing work.

The quotation should clearly indicate the item-wise description of work, quantity, rate, cost of materials, labour charges, applicable taxes and total quoted amount. The contractor/agency should also mention the proposed time required for completion of the work and the warranty/guarantee period for the waterproofing work.

All works shall be executed using good-quality materials and standard construction and waterproofing practices. The contractor shall take all necessary safety precautions during execution. Any damage caused to the existing laboratory, building structure, fittings or other facilities during the execution of the work shall be restored by the contractor at their own cost.

The sealed quotation/tender, superscribed "Tender for Repairing of Concrete Slab, Related RCC Work and Waterproofing in Chemistry Department Laboratory, Academic Block-B", should be submitted to the office of the undersigned on or before 20-09-2026 at 4 pm.

The competent authority reserves the right to accept or reject any or all quotations/tenders, wholly or partly, without assigning any reason thereof.
